

Figs - 3 Gallon Potted Plant - \$20 Each

Brown Turkey - Medium to large in size, has a copper colored skin with an amber to pink color flesh. It has a good flavor with very few seeds. Plants are very prolific, many times producing fruit twice a year. Brown Turkey is usually cold hardy as far north as climate zone 6 and they are self pollinating.

Celeste - Self fertile and produces fruit that is medium in size. It has a light violet-brown skin with a whitish pink color flesh. This variety also produces very few seeds making them great for fresh eating. Plants produce in early summer and are cold hardy through climate zone 6.

Pears - 5 Gallon Potted Plant - \$30 Each

Moonglow - A great pear tree, producing medium sized fruit that are yellow in color with a white, soft juicy flesh that ripens early. Mild flavor with almost no grit cells. Excellent for fresh use or canning. Trees have an upright growth and are blight resistant.

Apples - 5 Gallon Potted Plant - \$30 Each

Gala - Most of us are familiar with Gala apples! The fruit are medium to large in size, golden skin with red striping, white flesh, crisp, good flavor, and ripens mid-season. Tree growth habit is vigorous and upright.

Arkansas Black - A favorite across the nation, this vintage apple's dark red fruit turns nearly blackish when it's fully ripe, and it's flavor mellows and develops its bright, aromatic sweetness in storage. Best fresh eating is after 90 days, and fruit will keep its firm texture for months. A wonderful cooking apple as well. Very disease resistant.

Pecans - 5 Gallon Potted Plant - \$50 Each

Elliot - A wonderful tasting thin shelled pecan for easy shelling. Highly resistant to pecan scab.

Desirable - Has a large nut with a thin shell. Cracks easily and has a great pecan flavor. It produces consistently high yields. Trees are disease resistant, scab resistant, very prolific, and have upright growth habit. Pollinates with Elliott.
